### Technical profile

Harvest: particular vintage in terms of climatic course characterized by good weather and extremely high temperatures in summer, followed by optimal temperature range between day and night during the autumnal months. Winemaking: regular fermentation and submerged cap maceration; racking off at the beginning of November. Ageing: seven months in stainless steel tanks, three years and a half in big Slavonian oak barrels. Bottling: March 2008.

### Serving suggestion

Barolo Borgogno is one of the oldest Barolo produced following a classic and natural style. These precious bottles could have some sediment settled in the bottom, for this reason decanting the wine few minutes before the service is recommended.

### Perfect pairing

We think it is wrong to recommend a "perfect" food - wine pairing, because everyone have their personal ideas and tastes. However we can suggest with whom it is perfect to drink this wine. With everybody!

### Liste

### Cannubi

### Fossati

### San Pietro delle Viole

It comes from all the estate's vineyards, five of the best Crus in Barolo area: Liste, Cannubi, Cannubi San Lorenzo, Fossati and San Pietro delle Viole. The first one, was born 11 million years ago from soil erosion, is composed by a completeness of micro and macro elements that combined together give to the wine peculiar characteristics of complexity and longevity. Cannubi and Cannubi San Lorenzo were born 12 million years ago from the sedimentation of the sea that occupied the Plain of the Po river, is the most famous and vocationed Barolo Cru. They have an amazing complexity of terroir, formed by marly-calcareous soil and a very favorable climate and they give origin to wines with distinguished characters of elegance and longevity. Fossati vineyard was born about 10 million years ago from the sedimentation of the sea that occupied the Plain of the Po river after the push of the African continent against Italian peninsula. Since this vineyard has a relatively young terroir, it is composed by a good percentage of sand and its wines have great floral and red fruits fragrances. San Pietro delle Viole was born 9/10 million years ago and it is the youngest Borgogno vineyard. As its name explain, San Pietro delle Viole, the Barolo has fragrant bouquet, recalling violets notes, always soft and open.
