Vineyard position: south/south-east

Soil: calcareous and clayey marl

Wine training system: Archetto variation of Guyot system

Planting density: 4000 plants/ha

Grape harvest: October 1st - 13th, 2005

Alcohol content: 13.50%

Serving temperature: 18/20 °C

Technical profile

Harvest: temperate winter followed by a cool spring with few precipitations. The summer was characterized by hot temperatures followed by cooler weather condition in August. Temperature ranges during the months of September and October helped the accumulation of sugars and aromatic substances in the grape. **Winemaking:** regular fermentation for 15 days and submerged cap maceration for 30 days; racking off at the middle of November. **Aging:** six years in Slavonia oak barrels with a further refining in bottle for 6 months.

Serving suggestion

Barolo Borgogno is one of the oldest Barolo produced following a classic and natural style. These precious bottles could have some sediment settled in the bottom, for this reason decanting the wine few minutes before the service is recommended.

Perfect pairing

We think it is wrong to recommend a "perfect" food - wine pairing, because everyone have their personal ideas and tastes. However we can suggest with whom it is perfect to drink this wine. With everybody!

Liste

Cannubi

Fossati

It comes from three estate's vineyards: Liste, Cannubi and Fossati. The first one, was born 11 million years ago from soil erosion, is composed by a completeness of micro and macro elements that combined together give to the wine peculiar characteristics of complexity and longevity. Cannubi was born 12 million years ago from the sedimentation of the sea, it is the most famous and vocationed Barolo Cru. It has an amazing complexity of terroir, formed by marly-calcareous soil and a very favourable climate and it originates wines with distinguished characters of elegance and longevity. Fossati vineyard was born about 10 million years ago from the sedimentation of the sea that occupied the Plain of the Po river after the push of the African continent against Italian peninsula. Since this vineyard has a relatively young terroir, it is composed by a good percentage of sand and its wines have great floral and red fruits fragrances.
